## IMPORTANT FACTS ABOUT YOUR TRIP

Daily activities may vary from the program depending on the weather, river conditions, canoes, or the preferences of the group.

Yasuní National Park is one of the most biodiverse places on Earth, offering pristine primary rainforest and extraordinary wildlife. This private expedition takes place in remote Waorani territories, far from conventional tourism routes, ensuring an authentic and immersive experience.

Exploration is by canoe and guided jungle walks on mostly flat trails, sometimes muddy or flooded. Wildlife may include macaws, monkeys, pink river dolphins, caimans, and occasionally anacondas, though sightings depend on natural conditions and weather.

Rain can occur at any time, so proper preparation is essential. Canoes are safe and comfortable, luggage is protected from rain, and accommodation is located along the riverbanks. Guests should be prepared to carry their own luggage short distances and assist during the overnight beach camping experience.

This journey is designed for travelers seeking nature, authenticity, and deep rainforest immersion.
